1. Applicant's papers filed on 7/22/2005 have been received and entered. Claims 1-20 are pending in the application.
2. Applicant's remarks have been considered.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed.

Claims 1-20 are allowable over the prior art of record because none of the prior art whether taken singularly or in combination to teach the claimed combination, especially when these limitations are considered within the specific claimed combination, particularly require such: selecting a frequency from the array based on a correlation of the assigned jitter values in the first set with the frequencies in the array, wherein the selected frequency has the highest correlation (claim 1); selecting a frequency from the array of frequencies based on a correlation of the assigned jitter values in the first set with the frequencies in the array (claim 9); assigning a jitter value to each of the samples in the acquired set and selecting a frequency from an array of frequencies based on a correlation of the assigned jitter values with the frequencies in the array (claim 17).

The dependent claims are allowable based on the allowability of parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
